

Say Thank You
to those who
were there when
you needed
them most.

A way to give when you have been Given so much.

Perhaps it was a simple “thank you,” or a hand shake, maybe a card of appreciation. Acts of appreciation come in many forms. It’s certainly a rewarding feeling for our highly-trained healthcare professionals to know they were there when patients and families needed them the most.

If you are grateful for the care you or a loved one has received, show your appreciation by considering a gift to the St. Alexius Medical Center Foundation through the *Grateful Patient and Families* program.

The *Grateful Patient and Families* program gives our patients, families and friends the opportunity to say, "thank you," to those who cared for them – their physicians, nurses, therapists and other members of the St. Alexius Medical Center healthcare team who have made a memorable contribution to our patients' health and well-being.

When you consider a donation to the St. Alexius Medical Center Foundation, you show your appreciation in a way that will help others receive outstanding care. The effects of your kindness are profound and far-reaching. Your gift helps us to change lives and benefit our community for years to come; through purchasing the most modern equipment, providing continuing education for nurses and other staff, and providing the healing presence represented by our mission to "Let all be

received as Christ." Upon receipt of your gift, the healthcare provider will be acknowledged through a letter, on the St. Alexius Medical Center website, as well as in other publications published throughout the medical center.

Show your appreciation in a way that will help others receive the outstanding care they deserve. The effects of your kindness are profound and far-reaching. Help us change lives through the *Grateful Patient and Families* program today!
