# Clinical Research Services

## Who We Are:

Clinical Research Services is a department within St. Alexius Medical Center in Bismarck, ND. We are fully dedicated to providing research support services to physicians within our region and the valued patients they serve.

**S**t. Alexius Medical Center is a tertiary care facility affiliated with PrimeCare, a health group which combines the most experienced, trusted, and proven medical leaders in the area. PrimeCare is comprised of a network, which includes over 150 physicians in private and institutional practice, including: St. Alexius Medical Center, Mid Dakota Clinic, PC, The Bone & Joint Center, and other affiliated area physicians. Many of these physicians are actively involved as investigators for clinical trials.

Our clinical research team is committed to providing:

- *Rapid study start-up*
- *Pro-active patient enrollment*
- *Clean data submission*
- *Highly experienced principal investigators*
- *Initial training and continuing education for all support personnel*

## Experience

---

Clinical Research Services has been involved in clinical research since 1987. Our professional staff has more than 175 years of combined experience in clinical trials. We are committed to providing outstanding service to ensure the success of every project.

Our involvement in inpatient and outpatient phase II-IV clinical and device research studies has contributed substantially to the approval of new drugs and treatments.

We have experience in the following areas:

- Cardiology
- Gastroenterology
- Internal Medicine
- Medical Devices
- Men's Health
- Nephrology
- Oncology
- Orthopaedic
- Pediatrics
- Psychiatry
- Pulmonology
- Rheumatology
- Women's Health
- Urology

## Patient Demographics

---

Characteristics of our patients include prominent northern European and Native American populations with a low drop-out rate.

Our service area encompasses central and western North Dakota, northern South Dakota and eastern Montana. This area is made up of a population of approximately 400,000 individuals.

## Facility Description

---

As a department within St. Alexius Medical Center, a Level II Trauma Center with 308 beds, Clinical Research Services is centered among St. Alexius multi-specialty clinics which include: Neonatology, Nephrology, Pediatric Neurology, Neuro-surgery, Physical Medicine, Rheumatology, Urology and Heart & Lung Clinic.

The medical complex is equipped with CT, PET scan, MRI, Hologic DEXA scanners, a state-of-the-art radiotherapy Cancer Care Center, an accredited sleep laboratory, an outpatient hemodialysis and peritoneal dialysis center, and regional laboratory services. It also offers full electrophysiologic and interventional cardiology labs.
